

Take Me Home

1.

Rock of ages -where is it gone

Too many stupid - no emotion at all

Not a song, not a whisper - not a sound, not a cry

Fear of emotions - they all just have died

Bridge

Get back to rock

Get back to soul

We want our style - we just want to let go

Chorus

Take me home - to my places

Take me home - to where I belong

Take me home - I pull my aces

Take me home - let me go on

2.

Due to application - it's all black and white

Got to pick my 6-string - computers not right

Bridge

Get back to rock

Get back to soul

We want our style - we just want to let go

Yeah

Chorus

Take me home - to my places

Take me home - to where I belong

Take me home - I pull my aces

Take me home - let me go on
