

Ballad For A Friend

1.

**The last drink is over
the bottle is clear
time to recover
the light is so near
and we are together,
on our way home, on our way ...**

2.

**The light of the candle
is flickering low
a hard life to handle
one has to grow
we are going through
all these ups and downs**

Bridge

**we feel like brothers
we are best friends
don't care about others
don't think about the end**

Chorus

**Now I feel so sad
you're the brother I never had
and I've lost you forever
Now I feel so bad
a hole in the ground is the place
Where we can talk together**

Solo
