

# **Tears of Fire**

## **1. Strophe**

**I walk this lonely road without an end**

**I got a six string on my back**

### **Bridge**

**Every time I close my eyes**

**I see those visions again**

**and every time I realize**

**it's so hard to get in....coz it feels like**

### **Chorus**

**Walking through tears of fire**

**walking through fields of pain**

## **2. Strophe**

**So many dreams are lost in vain**

**pick up the pieces of my broken heart**

### **Bridge**

**so many times I lost my faith**

**feels like I'm down to the ground**

**but now I fight those tears of pain**

**and never surrender again**

**I'll be back on this streets - again**

**ready for a brand new start....coz it feels like**

### **Chorus**

**Walking through tears of fire**

**walking through fields of pain**

**walking through tears of fire**

**walking through fields of pain**
